

INTERNATIONAL CANINE SEMEN BANK

PROCEDURE FOR SHIPPING CANINE TESTES FOR EPIDIDYMAL SPERM HARVEST

When you wish to ship the testes from an animal that is to be neutered, euthanized, or has expired from accident or disease:

1. If there is time, call (503) 663-7031 to arrange for time and date of shipping.
2. Place the frozen cold pack in the bottom of the insulated shipping container.
3. Place about 1/4 inch of folded paper packing over the cold pack.
4. If the animal is to be euthanized: In order to protect the sperm cells, anesthetize with gas if possible, or with injectible anesthetic. Tie off the vessels and ducts going to the testes/scrotum, and remove the testes and scrotum, all in one unit from the animal, then proceed with the euthanasia. If a euthanizing solution is used first, this will more than likely kill the sperm cells, too, so it is important to anesthetize first.
5. If the animal has died as a result of injury or disease, allow the carcass to cool (do not allow to freeze) for 2 hours prior to removing the testes-scrotum if possible. After this length of time, the vessels may not need to be ligated.
6. Place the scrotum-testes or testes in the zip-lock, leak-proof bag and lay on top of the folded newspaper. Do not add any fluid, i.e., normal saline in with the scrotum/testes. Place crumpled newspaper over the bag so that the contents remain in position during shipping.
7. Complete and enclose the Authorization form and DNA kit, if required, and ship the package overnight UPS, FED EX or via air cargo (you will have to be a known shipper to use air cargo). ICSB will contact you with the results. ICSB WILL NOT PROCESS SEMEN FOR FREEZING WITHOUT A FORM OF PAYMENT.

Ship to: ICSB-OREGON, LLC
11241 S.E. 362ND AVENUE
BORING, OREGON 97009
Telephone: (503) 663-7031 • E-mail: ik9sb@aol.com

BE SURE TO CALL TO LET US KNOW THE PACKAGE IS COMING IN!
